TOF

Welcome to the recruitment process for the role of Intern at Think Of It Foundation.
Thank you for applying

Just so you know again ,

You're the most amazing person in all lands. :)))

While all team members await to welcome and aboard you at HQ, our **amazing team of like-minded young leaders** who lead chapters in your city, **invites you** to participate and work on live projects and contribute to our objective of a better society and youth-led nation.
You get to choose any role based on your interest and domain under the Youth Leadership Program.

General Information for this recruitment process :

- Applicants need to understand and submit the task before the deadline.
- Proper documentation of the assignment is expected.
- Applicants need to verify the sharing permission before submitting the task. (Manager should be able to access your task).

!! GOOD LUCK !!

Assignment

Review Criteria:

- In order to complete this task, please do the necessary research and only then start working on the task.
- You may host your code on any free hosting website for the time being.
- In case you have any questions, feel free to chat with the hiring manager anytime and get your questions answered. DO **NOT** misinterpret the task and waste your time in submitting the wrong output.
- You will have to read additional resources on how to bypass the captcha, verification code, etc.

Required Action:

- You need to download the voters / electoral list from this website - https://ceoelection.maharashtra.gov.in/searchlist/
- Following are the manual steps you need to follow once to understand the flow
- Step 1
  - Visit website - https://ceoelection.maharashtra.gov.in/searchlist/
- Step 2
  - Select District - Select Any
  - Select Assembly Constituency - Select Any
  - Type of Revision - SSR 2023 (By Default - Remains Same >>> Do NOT change)
  - Language of E-Rolls - Marathi (By Default - Remains Same >>> Do NOT change)
  - Select Part - Select Any
- Enter Captcha - Enter
- Click on 'Open PDF' - It'll be downloaded to your system.
- Above are the steps to download one voter list. You must have understood there are multiple assembly constituencies and many parts under it and a 5000+ voters list. It is time consuming to download the lists one by one.
- **Your task is to automate the whole process by keeping less-to-no manual work.** Write a script/extension to perform the operations of downloading the PDF automatically one by one and save on the system. You'll have to figure out ways to bypass the captcha system.

    Users will ONLY input - '**Select District'** and all subsequent operations must be automatically done.

Note:

- You can also create a temporary extension or any other way to run your script.
- Make use of free resources available online to perform these operations.
- In case of any doubts, get in touch with the hiring manager on the chat.
- **In order to submit the task, host your code/extension on any free hosting server and submit a demo video with the link to the hosted extension/code**.
